01 · About Us

Who we are

Ganesha Marine and Industrial Fabrications is a Visakhapatnam-based fabrication firm registered in December 2024, bringing twenty-five years of Indian Navy and shipyard leadership under one roof. We build and repair vessels for the Indian Navy, port authorities and commercial shipping clients — from new hull construction to dry-dock repair and heavy structural steel fabrication — backed by a tied-up workshop at Autonagar, Visakhapatnam, and a design partnership with Vizag Marine Consultants for stability and design calculations.

New ship construction

Hull, superstructure and outfit fabrication for barges, catamarans and workboats, from steel plate through to launch-ready structure.

Ship repair & dry docking

Dry docking, undocking, hull and piping repair for naval and commercial vessels, on class-surveyor timelines.

Industrial structural fabrication

Heavy structural steel work for shore-side and industrial clients, including foundation and load-bearing structures.

Material & equipment supply

Sourcing and supply of marine-grade plate, piping and fabrication inputs alongside our own project work.
